

# HOTEL ENGINEER

## 2017/2018 media kit

The Hotel and Tourism industries continue to grow at an impressive rate. New technology has become an ongoing process, and to meet these challenges, engineers and facility managers must avail themselves to every opportunity to increase their knowledge base.

**The Hotel Engineer is the official publication of the Australian Institute of Hotel Engineering (AIHE).**

This innovative magazine specifically targets the needs of engineers, facility managers and maintenance people in hotels and resorts, providing them with informative features on the latest ideas, developments and technology that is taking place around the globe in their specific world. Our experienced writers understand the need to deliver timely information so hotels can innovate and reach performance targets.

The Hotel Engineer is a direct link between advertisers and decision makers. The journal is provided to all members of the **AIHE**, major hotels and resorts across Australia. It also has a large subscriber base throughout New Zealand, Fiji and South East Asia.

**Along with the hard copy the journal is also distributed as an interactive digital publication to in excess of over 8700 readers.** These include the AIHE members (Chief Engineers, Facility Managers, Maintenance Managers and Hotel General Managers), as well as to consulting engineers, builders, contractors and those engaged in the building, running and maintenance of hotels.

The Hotel Engineer provides for those manufacturers and distributors of machinery, products and services in this area to communicate with the very people your business seeks to target.

## HOTEL ENGINEERING IS ONLINE & INTERACTIVE

AIHE are pleased to announce that in conjunction with our hard copy magazine, Hotel Engineer is online and interactive. See overleaf for details on hyperlinking your advertisement.
